ACD Systems -tuoteperhe

ACD Systems

ACD Systems is one of the largest and most respected independent digital image editing and management companies in the world. The company was founded in 1993 in Texas by technology and imaging visionary Doug Vandekerkhove. Doug foresaw the importance of the convergence of analog and digital (print, photos, scans, video and metadata) in the 80's, revolutionizing how analog and digital information was used in pre-Web applications. Today ACD holds seven patents, and millions of ACDSee products are in use throughout the world.

ACD Systems has offices in the United States and Canada, supported by a team of global channel partners. With a product family that includes ACDSee Pro 6, ACDSee Pro 2 (Mac), ACDSee 16 photo editing and management solutions, and Canvas technical illustration software, the company serves millions of consumers, small and medium sized businesses, government agencies and educational institutions, and corporate customers.

Representative markets for ACD Systems' products include AEC (architecture, engineering and construction), insurance, manufacturing, aerospace, automotive, government, architecture/construction, education, gaming, technology, bio/health and oil/gas/energy. Customers include General Motors, Caterpillar, Boeing, The New York City Fire Department, NASA, CNN and the Royal Canadian Mounted Police. ACDSee software was used in the making of the movie Titanic because the filmmakers recognized that only ACDSee could provide the illustration, editing and management tools required for their large scale, complex development tasks and image management requirements.

We would like to introduce you to the new ACD family that is better than ever and will really appeal to you all!

ACDSee Pro 6: Total Photography Control! This software has been developed with the amateur and professional photographer in mind. You will love the ability to edit your photos and really take your pictures to the next level.

ACDSee 16: You will love this software because it really is the best way to manage

edit and share your photos at such an affordable cost.

ACDSee Pro 3 (Mac): You Mac users weren't forgotten! The same function and features in ACDSee Pro 6 but for you Mac Lovers!

ACDSee Photo Editor 6: This software was designed for you to edit your photos and allow them to take any shot and turn it into your best shot!

Canvas 14: This is perfect for all you who are looking to create, enhance and share technical illustrations. This is perfect for all you graphic designers and engineers.
