ACD Systems ACDSee Pro 7

ACD Systems is one of the largest and most respected independent digital image editing and management companies in the world. The company was founded in 1993 in Texas by technology and imaging visionary Doug Vandekerkhove. Doug foresaw the importance of the convergence of analog and digital (print, photos, scans, video and metadata) in the 80's, revolutionizing how analog and digital information was used in pre-Web applications. Today ACD holds seven patents, and millions of ACDSee products are in use throughout the world.

ACD Systems has offices in the United States and Canada, supported by a team of global channel partners. With a product family that includes ACDSee Pro 6, ACDSee Pro 2 (Mac), ACDSee 16 photo editing and management solutions, and Canvas technical illustration software, the company serves millions of consumers, small and medium sized businesses, government agencies and educational institutions, and corporate customers.

Representative markets for ACD Systems' products include AEC (architecture, engineering and construction), insurance, manufacturing, aerospace, automotive, government, architecture/construction, education, gaming, technology, bio/health and oil/gas/energy. Customers include General Motors, Caterpillar, Boeing, The New York City Fire Department, NASA, CNN and the Royal Canadian Mounted Police. ACDSee software was used in the making of the movie Titanic because the filmmakers recognized that only ACDSee could provide the illustration, editing and management tools required for their large scale, complex development tasks and image management requirements.

acdsee Pro 7

Total Photography Control

ACDSee Pro 7 has everything you need to manage, perfect, and present your images. Carry out digital asset management and all the essential tasks of your photography workflow in one complete, amazingly fast solution. Achieve stunning results, stay organized, save time. ACDSee Pro 7 delivers total photography control.

Top Features

ACDSee Pro 7 has everything you need to manage, perfect, and present your images. Carry out digital asset management and all the essential tasks of your photography

workflow in one complete, amazingly fast solution. Achieve stunning results, stay organized, save time. ACDSee Pro 7 delivers total photography control.

Digital asset management

Organize any way you want. Add metadata, ratings, keywords, categories, and location details to your images. Quickly identify photos for further processing with visual tags and color labels. Make use of powerful search tools to find photos based on almost any criteria. With ACDSee Pro 7, even the wildest of libraries can be tamed.

Non-destructive freedom

Get set for worry-free, go-for-it creativity. ACDSee Pro 7's non-destructive environment means your original images always stay intact. Preview your changes instantly, hide, reveal or switch up adjustments, and save different versions of your photos.

RAW processing

See incredibly true-to-life color representation and contrast. Get the correct white balance and exposure, and fine tune tonal distribution. Boost vibrance while protecting skin tones, and adjust saturation, brightness and hue on a color-by-color basis. Avoid color clipping during RAW conversion by leveraging your image's histogram.

Super fast viewing

Count on ACDSee Pro 7 to display your photos, including the largest of RAW files, exactly the way you want, fast. View your images in real time, from their original locations, since you never have to import them into a separate library first.

Patented lighting technology

Improve areas that are too light or too dark with the Lighting tool, powered by ACDSee's patented LCE (Lighting and Contrast Enhancement) technology. Instantly lighten shadows and reduce highlights, change the tonal range and color balance, and experiment with single-exposure HDR effects.

Brush on selective edits

Brush on any editing effect or adjustment to a targeted area of your photo, complete with size and feathering controls to get the exact look you want. Tune your images, sharpen, reduce noise, erase unwanted objects, and more.

Powerful batch processing

Save an incredible amount of time. Set ACDSee Pro 7 to perform a range of workflow steps on batches of images at once. Convert formats and color space, resize, change filenames, add watermarks, and easily save them as presets to work even faster the next go around.

Advanced color control

Take full control of your images with Advanced Color tools to subtly fine-tune or dramatically change hue, saturation, and lightness. And a dedicated black and white mode allows you to make hue-based brightness adjustments to your monochrome images, and to add a specific hue back in.

Present and protect

Whether you share socially, present online, or email directly to clients, showcasing your photos has never been this effortless. And you can count on ACDSee to help you protect all your valuable work, both offline and in the cloud.

The banner features two versions of the software. On the left, 'acdsee Pro 7' is shown with a camera and a 'Upgrade Now' badge. On the right, 'acdsee 17' is shown with a camera and a 'Upgrade Now' badge.

System Requirements

Hardware

- Intel® Pentium® III / AMD Athlon processor or equivalent (Intel® Pentium® 4 / AMD Athlon XP or equivalent recommended)
- 512 MB RAM (1 GB RAM recommended)
- 310 MB free hard drive space (1 GB recommended)
- High Color display adapter at 1024 x 768 resolution (1280 x 1024 recommended)
- CD/DVD Burner - for creating CDs and DVDs

Software

- Microsoft® Windows® XP with Service Pack 3, Windows Vista®, Windows® 7 or Windows® 8.
- Microsoft® Internet Explorer® 7+
- Microsoft® DirectX® 9.0c
- Ghostscript 8.0 - for PDF support
- Windows Media® Player 9.0

The banner features a woman in a red mask. On the left, a pink circle says 'EARN UP TO €100* CASHBACK'. The text 'Create and Save' is in the center. On the right, it says 'CorelDRAW GRAPHICS SUITE 2019' and 'Zaky Mufthi'. A blue button says 'FIND OUT MORE'. Small text at the bottom right reads '*Terms and conditions apply. Payment in local currency'.

The banner features a sun icon on the left. The text 'KESKITETYSTI' is on a black background. The main text is 'AutoDWG Converter' in white on a blue background. On the right, 'AutoDWG' is written above a circular logo, with 'KESKITETYSTI' on a black background below it.
