Chaos Group V-Ray 6 Solo

Create your world.

**V-Ray**
Solo

Chaos Group provides innovative rendering solutions for the media, entertainment, and design industries. For over a decade our flagship rendering software, V-Ray®, has set the standard for speed, quality, reliability and ease of use, and it has become the rendering engine of choice for renowned international studios. We proudly support the 3D community through our suite of software solutions: V-Ray® for Autodesk® 3ds Max®, V-Ray® for Autodesk® Maya®, V-Ray® for Autodesk® Softimage®, V-Ray® for Rhino®, V-Ray® for SketchUp®, Phoenix FD™ Autodesk® 3ds Max®, Phoenix FD™ for Autodesk® Maya®, and Pdplayer™.

Chaos Group was founded in 1997 in Bulgaria and has grown from a team of two to a team of more than 100 people located in our offices in Europe, USA, Japan and Korea. Apart from our growing team, we also take pride in our solid network of resellers and distributors who provide professional services and timely support to our clients worldwide.

Please notice!

Our 3+ Campaign for V-Ray & Corona is officially live.

Starting today, until March 29, 2024, customers get option for purchasing new annual commercial Corona (Solo and Premium) and V-Ray® (Solo, Premium, and Enterprise) licenses with an additional three months at no extra cost.

This campaign is not applicable to renewals and annual licenses for educational products. Terms & Conditions apply.

This means that CHAOS now offers promo with 3 extra months for purchase of NEW licenses of V-Ray & Corona. Prices remain the same, only expiration will be set to 15 months.

Chaos V-Ray

To simplify our V-Ray product line and offer customers more value and flexibility, we will no longer sell V-Ray for specific host applications. Instead, customers only need to purchase a single V-Ray license to **access all V-Ray integrations, including 3ds Max, Cinema 4D, Houdini, Maya, Nuke, Revit, Rhino, SketchUp, and Unreal.**

V-Ray will also be offered in three plans: Solo, Premium, and Enterprise.

Chaos V-Ray Solo

For customers looking for the most cost-effective way to use V-Ray on a single

computer, Solo is a great option. This node-locked V-Ray license can be used to set up and render on a single machine using any supported host integration. Access to 3D content on Chaos Cosmos is also included. V-Ray Solo is an excellent choice for those looking to save money without compromising on quality or features. Solo node-locked licenses will be available as monthly, annual, and 3-year subscriptions.

Chaos V-Ray Premium

The Premium tier is the best option for most customers and is comparable to our previous V-Ray Collection offering. With this tier, customers can install V-Ray on any machine and use it with any supported host application. Premium also includes a floating license for Chaos companion products, such as Phoenix, Player, Scans, and Vantage. In addition, it includes a starting pack of 20 free credits for Chaos Cloud rendering and access to the growing Chaos Cosmos content library. Premium floating licenses will be available as monthly, annual, and 3-year subscriptions.

Chaos V-Ray Enterprise

Enterprise is the most cost-effective option for studios and firms that need 5 or more licenses of V-Ray. Customers get all of the benefits of the Premium tier, but priced at a discount for multiple seats. Enterprise floating licenses will be available as annual and 3-year subscriptions.

New license sales will be subscription only

Subscriptions are an easy and flexible way for customers to stay current with all updates and new features of V-Ray. Monthly, annual, and 3-year subscription options are available for Solo and Premium tiers, providing an affordable option to start using V-Ray right away while benefiting from further discounted pricing for longer subscription plans. Enterprise plans do not include a monthly option and are priced for annual and 3-year terms

Should I buy V-Ray when SketchUp Studio including V-Ray is cheaper?

Studio users only have access to V-Ray for SketchUp, whereas V-Ray Solo users have access to all V-Ray products, including V-Ray for 3ds Max, Cinema 4D, Houdini, Maya, Nuke, Revit, Rhino, SketchUp, and Unreal. V-Ray Premium users will have access to companion products such as Chaos Cloud, Chaos Phoenix, Chaos Vantage, Chaos Player, and Chaos Scans, on top of all V-Ray products

Chaos V-Ray Education

With the release of V-Ray 6, we will no longer sell V-Ray for specific host applications. Instead, customers will only need to purchase a single V-Ray license to access all V-Ray integrations. Students will be able to purchase Chaos V-Ray Education.

The Chaos V-Ray Education license is comparable to our previous V-Ray EDU Collection offering and is the best option for all qualifying educational customers - students, educators and educational institutions. With this license, customers can install V-Ray on any machine and use it with any supported host application. Chaos V-Ray Education also includes a floating license for Chaos companion products, such as Phoenix, Player, Scans, and Vantage. In addition, it includes credits for Chaos Cloud rendering and access to the growing Chaos Cosmos content library.

Chaos V-Ray Education floating licenses will be available as annual subscriptions to

students, educators and educational institutions. 3-year subscriptions are also available to educational institutions with integrated volume discounts.

Minimum purchasing quantity for new institutions is 6 licenses.

10 free Chaos Cloud credits are available as part of V-Ray Education to students and educators. Additional credit packages of 50 and 100 Chaos Cloud credits continue to be available to students and educators at a discounted price.

Educational institutions are eligible to purchase a custom package of Chaos Cloud credits with a special educational discount.

Softa SuperStore Finland Oy helps you with software matters in Helsinki, Espoo, Tampere, Vantaa, Oulu, Turku, Jyväskylä, Lahti, Kuopio, Pori, Kouvola, Suomi, Finland
