Corel PaintShop Pro 2023

Corel is one of the world's top software companies providing some of the industry's best-known graphics, productivity and digital media products. Boasting the most comprehensive portfolio of innovative software, we've built a reputation for delivering solutions that are easy to learn and use, helping people achieve new levels of creativity and productivity. The industry has responded with hundreds of awards for innovation, design and value.

Used by millions of people around the world, our product lines include CorelDRAW® Graphics Suite, Corel® Painter®, Corel® PaintShop® Pro, Corel® VideoStudio® and Corel® WordPerfect® Office. For more information on Corel, please visit www.corel.com.

PaintShop Pro 2023

Photo editing software for Windows

Why choose PaintShop Pro?

Edit photos like a pro

Edit, retouch and correct your photography with a comprehensive toolset designed for all skill levels.

Add effects for impact

Experiment with hundreds of creative filters and fun effects to make your photos personal and original to share and print.

Create graphics and designs

Work with intuitive text, brushes, textures, patterns, drawing, and painting tools to produce inspiring designs.

Rely on artificial intelligence

Make every shot your best shot with PaintShop® Pro 2023, an advanced photo editor delivering a versatile range of pro-level editing and graphic design tools along with time-saving AI-based solutions. Imagined for all skill levels and designed with multiple workspaces, PaintShop Pro makes it all happen faster from one-click fixes to intelligent photo editing.

You'll find it easy to navigate and accomplish whatever photo task you need. Complete your visual story with a collection of graphic design tools to paint, draw, add text or build composites with layers and masks. A positive experience from start to finish, you can produce results that are as unique as your images.

Real. Intelligent. Creative.

Make big enhancements to photos with one click using AI-powered tools and machine learning technology.

Choose from multiple workspaces

PaintShop Pro is all about selection and customization, offering multiple workspaces you can make your own to work most efficiently.

Who is PaintShop Pro for?

Photography enthusiasts

From hobbyists to photo enthusiasts, every photographer needs tools that help them achieve their creative vision. PaintShop Pro provides everything photographers need for editing and managing an entire photo collection in one product.

Graphic designers and creative consumers

With layers, vector tools, and painting and drawing tools, PaintShop Pro is an ideal solution at home or at work. Graphic designers use PaintShop Pro to make a variety of compositions, including posters, brochures, web graphics and more. Creative consumers produce content to share with friends and family. Both groups will love PaintShop Pro's new color palettes, brushes, gradients, patterns and picture tubes.

Businesses

For businesses of all sizes, PaintShop Pro is enormously valuable at work for everything from in-house graphic designing and creating stunning slideshows, to using screenshot and annotation tools to communicate with clarity. Volume licensing, network deployability, and quantity discounts make it an excellent choice for business and education settings.

What's new in Corel PaintShop Pro 2023

NEW Focus Stacking

Go crisp and clear with new Focus Stacking allowing to blend multiple images of the same scene, taken at different focus distances, to create a final composite with a greater depth of field (DOF) than any of the individual source images.

ENHANCED Frame Tool

Enrich the visual stories your images tell! Create shapes (clipped masks) based on symmetrical and Preset Shapes or even vector text objects—or convert already existing vector objects and text into shapes—all with an enhanced Frame Tool. Then, fill shapes with images, patterns, or colors to achieve certain effects—surrealistic, avant-garde, playful, or any other.

NEW AfterShot Lab

Enjoy powerful and complete editing of RAW files with a great variety of pro-level tools available in the new AfterShot Lab, now inside PaintShop Pro. There is no need for extra applications or for running several editing processes in parallel, with time-saving and streamlined RAW image editing.

ENHANCED Real-time Blend Mode preview

Take advantage of the new real-time Blend Mode preview to check layer blending results on the go by hovering over drop-list options in the Layers palette. Mix creatively and check on the fly with the user-friendly and intuitive Blend Mode tool.

NEW Snap to Objects

In your projects, align objects with precision in no time with new Snap to Objects feature. Use the bounding box to precisely snap two objects together with an automated high-level control and avoid extra steps in the editing process.

ENHANCED Usability and Performance

Enjoy enhancements across the board! Explore the updated layout of "New from Template" page, now with more content visible, plus new "Filter" and "Sorting" options to arrange quick search of theme topic. Get perfect results with the precise rotation value input and the rotation angles control in vector editing. See a 30% performance improvement when using Refine Brush, get support for the latest cameras, and so much more!

NEW!
**PaintShop®
Pro 2023**

Your digital world is
**ALWAYS
BRIGHTER**

LEARN MORE
