Mindsightstudios Artisan 2 - SketchUp Plugin

mind.sight.studios

SketchUp plugins for Professionals

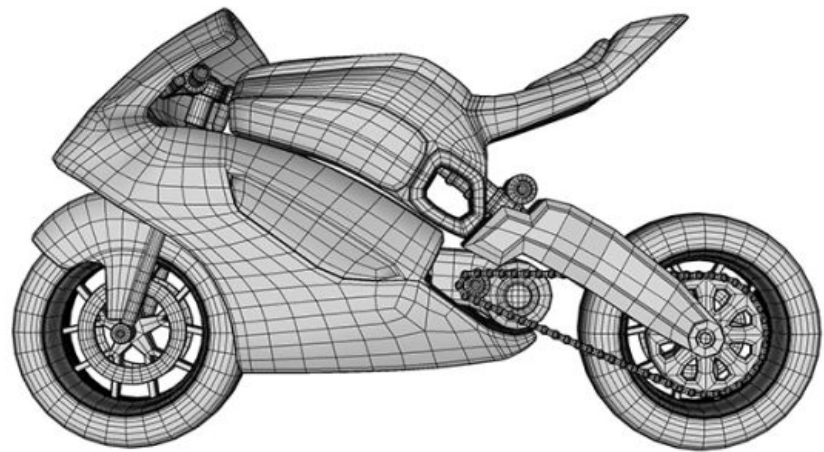

mind.sight.studios is a small software company located near the city of Saskatoon in Canada founded by Dale Martens. Dale has been one of the most prominent SketchUp Extension Developers since 2006. In 2016, he founded mind.sight.studios, left his career as a structural engineer, and became a full-time Software Developer.

mind.sight.studios has created many of the most well known and successful SketchUp extensions including Artisan, Skimp, Profile Builder, Quantifier Pro, SketchPlus, Bevel, and PlaceMaker. They are committed to delivering top quality extensions that are also easy to use.

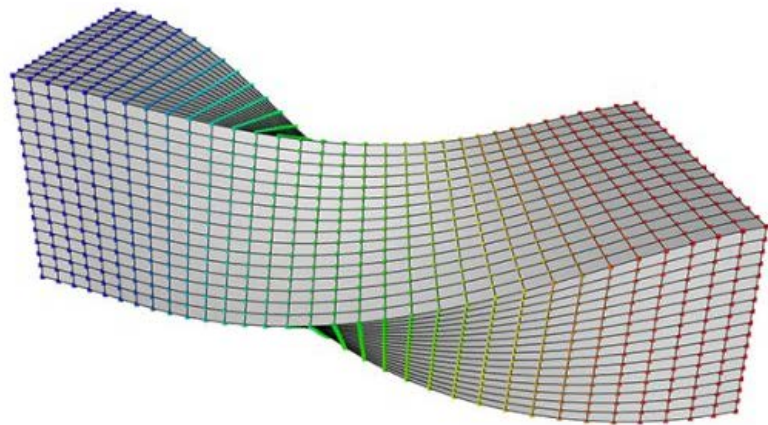

Artisan Organic Toolset

Artisan is an extension for SketchUp that lets you do the impossible! With powerful tools for subdivision, sculpting, soft selection, free-form deformation, extrusion, and more, Artisan will supercharge your ability to model terrain, characters, furniture, and other complex organic forms.

Subdivision

New in Artisan 2 is the ability to model using real-time subdivision modeling where the subdivided surface gets updated in real-time as you make edits.

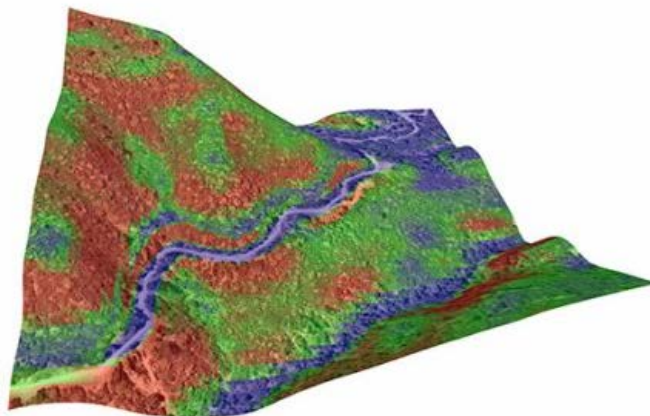

Transform

Perform soft transformations and maintain quads using automatic folding and healing, all in real-time.

Sculpt

The improvements to the sculpting tools have to be seen to be believed! Auto-Add Detail, new brushes, and easier symmetry give you the ability to sculpt anything you can imagine!

Terrain

The Artisan 2 Grade Brush is a revolutionary new tool for accurately grading terrain in SketchUp! Easily control both slope and direction!
