## Quark QuarkXPress 2023

Quark offers the only end-to-end content automation platform that enables the creation, management, publishing and delivery of content across print, Web and digital channels. Whether creating regulatory documentation, policies and procedures, investment research reports or interactive marketing communications, the world's most recognised brands are modernising their content strategies and processes with Quark solutions.

Quark Software Inc. was founded in Denver, Colo. in 1981 with the mission to reinvent how content creators and creative professionals bring their visions to life. Over the past 30+ years our solutions have made an indelible mark on the processes for creating high-fidelity, engaging and omni-channel content. Today, with the leading content automation platform, Quark infuses automation into every stage of the creation, management, publishing and delivery of today's most important content.

We started with the mission to reinvent how content creators and creative professionals bring their vision to life. We were the first to establish the design software marketplace by creating QuarkXPress, the smart solution for every creative professional to leverage the most modern and efficient design software in the market. We achieved a dominant position in the desktop publishing market and became the standard for desktop publishing. After achieving that position, we started working on another solution – Content Enablement.

Today, Quark Content Enablement is the only enterprise SaaS platform designed to fulfil all your Digital Publishing, Content Automation, Content Management, Marketing Enablement and Sales Enablement needs. Whether creating regulatory documentation, policies and procedures, investment research reports or interactive marketing communications, the world's most recognized brands are modernizing their content strategies and processes with Quark solutions.

## Jump into designing brilliant content!

**Page layout software for print and digital design**  
Unleash your creativity and maximize productivity with QuarkXPress

Quark Software, the global provider of content design, automation and intelligence software, has announced the availability of QuarkXPress 2023. The world's most powerful page layout and digital publishing software is now available for purchase as both a traditional perpetual license and a prepaid annual subscription. Any user, especially students, academic institutions and charities/nonprofits, now has a budget-friendly entry point to benefit from QuarkXPress 2023's features and enhancements, including the new royalty-free stock image library.

Celebrating 40 years in business and with new leadership since May 2021, Quark has been realigning and reinvigorating its brands with greater focus on product strategy and customer success. With an eye for innovating across the entire content management lifecycle, the company also remains dedicated to investing in its flagship QuarkXPress software. This release's modern licensing model and new upgrade options make it easier than ever for students, independent designers and content design teams for both small and large organizations to take advantage of the software's content design and digital publishing capabilities.

Graphic design and desktop publishing processes were long overdue for innovation and disruption, so enter QuarkXPress. Since its market debut in 1987, thousands of creative professionals have come to depend on its power, speed and reliability for content design – on its own or alongside other graphic design tools. Such functionality as native-object conversion, conditional styles, synchronized content and automatic

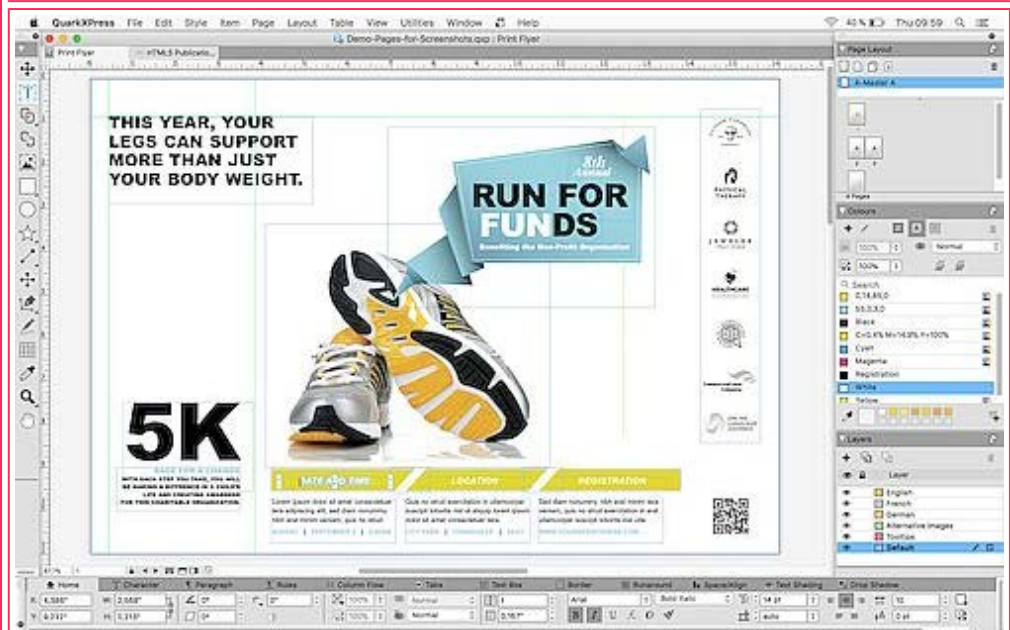

backups makes workflows dramatically faster to deliver projects as promised, on time and within budget. Its digital publishing capabilities are unmatched for quickly and easily converting documents into flex websites and other interactive, digital experiences. Brilliant print and digital content design begins with QuarkXPress, the original desktop publishing software for creative professionals.

## New Features in QuarkXPress 2023

The world's most powerful page layout and digital publishing software now brings a faster user experience for Apple Silicon machine users with native support. Enhanced usability and support for right-to-left languages, including Arabic, Hebrew and Urdu, extends the reach of QuarkXPress to offer even more users the most robust set of capabilities to support their design needs.

QuarkXPress 2023 is now compatible with macOS Ventura and includes cutting edge photo usability capabilities and long document support (up to 10,000 pages) for specialized projects. Additional new features and enhancements include:

- **Apple Silicon Native Support** – Users can run design projects natively on Apple Silicon chip devices and benefit from faster performance of the application compared to previous Intel chip versions.
- **Enriched UI – Team Collaboration and Workflow Productivity Enhancement** – A personalized, streamlined UI delivers a single pane of glass view to easily address any stage – or all stages – of the content lifecycle. Users receive alerts for priority content workflows that need fast attention.
- **Arabic, Hebrew and Urdu Languages** – Create content in Arabic, Hebrew and Urdu right-to-left (RTL) languages with full support for RTL Unicode fonts and native macOS features for keyboard input. Users can analyze and reorder characters per RTL orthographic rules, glyph positioning and compatibility with the Hunspell spell check library for 100% language accuracy.
- **In-App License Transfer**. Stay productive with the power to work on your design project wherever and whenever you need. Seamlessly move from one computer to another with easy transfer of your QuarkXPress license from inside the software with just a few clicks.

## QuarkXPress – The Best Professional Print and Digital Design Software Available

QuarkXPress offers Multi-Channel Publishing. Users can design for print media sticking to particular page size and the application allows the user to quickly convert

the print version into digital publications like Kindle eBooks, Flipbooks, and PDFs. Further, users can also publish to iOS and Android devices and the publications can adapt to multiple device sizes.

Users can import published multi-page PDFs into QuarkXPress, edit each object of the PDF as per the design needs and then export the edited publication to any target Print / Digital output media. This feature is very unique and increases the productivity of the designer multiple times.

QuarkXPress takes a big leap to allow users to build responsive web pages by simply assembling pre-designed template blocks to create beautiful web designs. The ability to preview web designs with a flexible canvas allows users to see the WYSIWYG web browser experience.
